

Dear Dr. Henney,

I am writing to express my concern over the
FDA's regulation of genetically engineered
(GE) food, to ask that the agency's current
policies be changed, and to support all the
points in docket #00P-1211/CP1

☒ All GE Foods should be labeled so I am
informed and have a choice.

☒ GE Foods should not be assumed to be
"generally recognized as safe" and should
have mandatory pre-market safety testing

☒ There should be a moratorium on GE
Foods until long-term studies show they are
safe for human health and the environment.
